

Chiltern 20 Challenge 2015

Statistics

There were 76 teams registered from 32 different groups spread across several counties including Buckinghamshire, Hertfordshire and Devon. The majority of teams came from our own county, Greater London North, but the rest of London was also well represented.

On the day the number of teams actually turning up and starting was 70. These comprised a total of 308 walkers, of whom 32 were adults. This means we managed to get 276 young Scouts out into the Chiltern Hills for a great day's walking.

There were sixteen teams walking the new event which was estimated to be 18 kilometres, and all of these walkers finished the course. There were 57 young Scouts all new to the event and the times varied from 7 hours and 42 minutes down to 4 hours and 3 minutes.

In the senior event we set a bigger challenge than previously, making the route approximately 28 kilometres. There were 54 teams that set out comprising 230 walkers, of which only 11 were adults. 42 of these teams finished the route correctly, with another three teams walking into the finish having unfortunately missed a checkpoint. Another three teams finished incomplete with a walker (or two) having retired at an earlier checkpoint. Consequently, only six teams failed to finish at all and of the 230 walkers 29 did not make it to the end - which meant that 201 walkers DID finish the course.

Slowest complete team to finish took 10 hours and 40 minutes, where as the fastest took less than half that, 4 hours and 58 minutes.
